

Street Army Canada

Our “[Winning This War](#)” unity proposal/project began on April 20. This is the first phase of our unity proposal and, as of June 1, it has come to an end. We sent the call for unity out to the groups and people listed in the table below. All of them ignored and/or rejected this call for unity. The results and conclusions of the first phase are reviewed in [this blog post](#).

There are 5 columns in this table. The first column named ‘**group**’ identifies the freedom group that has been contacted. The second, third and fourth columns indicate whether the group has been contacted a first, second and third time. These three columns show the date each group was contacted. If the value in ‘*first*’ column is blank/empty then the group has not yet been contacted. The fifth and last column is named ‘**status**’. The values in this column are ‘*accepted*’, ‘*rejected*’, ‘*no response*’ or blank (i.e. the cell is empty). The value ‘*accepted*’ means the group has joined and united with our freedom army. The value ‘*rejected*’ means the group rejected unity. The value ‘*no response*’ means we did not receive any response from the group. A “*no response*” is understood to be that same as “*rejected*”. As you can see, not a single group chose to join and unite.

Originally, all groups were to be contacted three times. After having contacted the groups two times, we collected all the data we needed and there was no reason to contact them a third time. These data provide a conclusive and damning indictment of our toothless chihuahuas in Canada.
